EDFacts Dashboards & Analytics

For Use by All State Education Agencies

EDFacts reporting is no longer a one-way street!

EDFacts Dashboards and Analytics (EDFacts D&A) is a set of 12 workbooks and 57 dashboards displaying your EDFacts data in a graphically enhanced and timely way.

EDFacts data are valuable to state agencies and local districts, however they are underutilized. States upload their EDFacts data each year through the EDFacts Submission System (ESS) but then have to wait for often two years to view those data.

EDFacts D&A Features

- A simple and secure EDFacts data upload process using the same file format as your current submission files
- Graphically enhanced dashboard visualizations of your EDFacts data that are available upon upload of submission files
- Each dashboard view contains relevant questions about your SEA's data as well as possible action steps to take based on those data
- An easy system to download and share 5 years of EDFacts data within your agency

EDFacts D&A Can Work with the EDFacts Shared State Solution (ES3)

ESP developed EDFacts D&A as a companion for the EDFacts Shared State Solution (ES3). Every SEA submits their EDFacts data in the same format; therefore, any state may benefit from EDFacts D&A.

The EDFacts Shared State Solution (ES3) was developed by ESP Solutions Group, Inc. in partnership with several state education agencies pooling resources and ideas for a common architecture that solves the challenge of fulfilling the requirements of the U.S. Department of Education's EDFacts reporting system

To view the complete set of dashboards with a sample five-year database visit www.ES3Facts.info or go directly to <https://public.tableau.com/profile/esp.edfacts.d.a#!/>.

Keep up-to-date with ES3 & EDFacts D&A at www.ES3Facts.info.
