

JOSHUA H. GOODMAN, PMP

PROFESSIONAL EXPERIENCE

ESP Solutions Group, Inc.

Senior Project Manager (2004 – Present)

As a certified Project Management Professional (PMP), Mr. Goodman is an expert at managing client projects and expectations. He serves as the project manager for ESP's largest clients. He established ESP's Quality Project Management (QPM) methodology, which is used on every ESP project by every ESP project manager. He ensures that every project adheres to QPM standards and requirements.

For the client, he ensures that deliverables, timelines, and budgets are met. His responsibilities include requirements gathering, coordinating project tasks, invoicing and budget documentation, scheduling data system implementations and training, maintaining successful client relationships, and managing communications with subcontractors.

Recent Client Projects

- Project Director, Missouri Department of Elementary and Secondary Education's Longitudinal Data System
- Project Director, Missouri Department of Elementary and Secondary Education's MOSIS data collection and reporting system
- Project Manager, Wyoming Department of Education's WISE data collection and reporting system
- Project Manager, Wyoming Department of Education's statewide Schools Interoperability Framework (SIF) implementation
- Project Manager, Wyoming Department of Education's Fusion education portal project
- Project Manager, Alaska Department of Education and Early Development's UNITY education portal project
- Project Manager, Alaska Department of Education and Early Development's statewide Schools Interoperability Framework (SIF) implementation

Electronic Data Systems (EDS) Contract

Business / Insurance Analyst (2003 – 2004)

Mr. Goodman served in a key information project management role that supported the EDS Project Life Cycle Process. He developed, implemented, and monitored two high-profile state government projects. He analyzed financial data to detect irregularities and presented findings and recommendations to both state agencies and EDS senior management.

Other areas of responsibility included analyzing operational systems, defining business rules, and creating program policy documentation.

State of Texas Office of the Governor, Criminal Justice Division

Program Administrator / Consultant (2002 – 2003)

Mr. Goodman developed and implemented controls for the management of state governed grant programs. He successfully directed a statewide team of grant program monitors responsible for the evaluation of 1,300 grant programs and the review of \$150,000,000 in state and federal funding. The outcome of the project resulted in process automation and the development of productive working relationships with grant programs and government officials.

G&S Typesetters and Book Production Services

Production Coordinator / Account and Project Manager (2000 – 2002)

Mr. Goodman coordinated the planning and production of professional trade and academic textbooks for Prentice Hall-PTR, Wadsworth, Addison-Wesley, Jossey-Bass, and McGraw-Hill/Mayfield. Other responsibilities included coordination of scheduling, editorial and proofreading functions, processing art work for book placement, pre-press, and archiving operations, and managing client-partner relationships.

First American Flood Data Services, Inc.

Project Manager, Technical Writer, and Research Analyst (1995 – 2000)

Mr. Goodman executed special projects for the Vice President of Operations and Research; including production-related database development and maintenance, the writing and editing of training and procedure manuals, documentation of database hit-rates, and implementation of operational programs; resulting in an increase in program quality and productivity.
